### The Ultimate Goat.

It's a rare newspaper you can pick up nowadays which does not inform you of new strikes being called or voted on somewhere. Everybody is striking except the poor old ultimate goat, who has never had sense enough to form a union and goes on trying to be a good citizen, paying every added extortion meekly and humbly, and bearing all the burden of the world's troubles. Some day the ultimate goat may wake up and then we will see a real union, and a real strike. When a group of men threaten to "tie the railroads up so tight that they never will run again," the ultimate goats will come right back and quit using the railroads. How would the railroad employees like that? When the landlords raise the rent too high, the ultimate goats will go on strike and live in tents until the rents come down. How would the landlords like that? When the profiteers boost the price of sugar, they'll quit using sugar. The possibilities are unlimited. What couldn't the ultimate goat do if he tried?

But, after all, maybe the goat will always be a goat. It is hard to change nature.—St. Paul Pioneer Press.

### Hearst Adds Soldier and Labor Man to Ontario Government.

The premier of Ontario has issued an appeal to the electors of that Province stating that he has followed in the footsteps of his immediate predecessor, the late Sir James Whitney, whom he succeeded in the premiership on October 2nd, 1914, and pointing out reasons why he thinks his government should be returned to power. In this connection he makes the announcement that Brig.-Gen. Arthur Ross for several years the representative of Kingston, will be taken into the cabinet immediately, in order to carry out the government's plans with regard to the soldiers' aid committee and the soldiers' settlement. The former advises and assists returned men and at the soldiers' settlement free land and teaching are provided. The labor man has not been named yet.

### West to Press Inquiry into Shoe Prices.

As a result of the announcement that the board of commerce is about to institute an inquiry at Montreal into the textile and boot and shoe industries the provincial governments of Saskatchewan and Manitoba have decided that these provinces shall be represented at such inquiry by counsel in view of the tremendous importance of the high cost of living, clothing and footwear.

## Clip Your Victory Bond Coupons on October 1st.

The Dominion Government will distribute \$2,500,000 in interest upon Canada's \$100,000,000 Second War Loan, on Wednesday October 1. What will be your share of this great interest payment? As a holder of some of these bonds it is advisable that you cash in your interest coupons promptly. Any of our \$70 Branches will cash these coupons. You should use the proceeds from "your clippings" to start a savings account with us, or add to the account already started. "Produce and Save."

### Hail Board Fixes Rate Six per cent.

Losses During the Year Have Totaled \$506,000; Insurance Carried Was Sixteen Millions.

The Alberta Hail Insurance Board held a meeting this week in the Canada Life Building, Calgary, and struck a rate of 6 per cent for the current year payable under the provisions of the municipal hail insurance act of the province on December 15.

It was disclosed that the total losses for the year on crops insured on the municipal plan was approximately \$506,000. The total amount of insurance carried by the board up to June 15 was in round figures \$16,000,000, but on account of drought and cutworm in various districts in Southern Alberta, some 500,000 acres were withdrawn during the late summer, leaving a total of about \$12,000,000.

### To the Members of the "Didsbury Curling Club, Limited."

At a General Meeting of the Company held at 8 p.m., on the 16th day of September, 1919, at the office of W. G. Liesemer, at Didsbury, Alberta, the following extraordinary resolutions were adopted:

(1) "Resolved that it has been proved to the satisfaction of the members of the "Didsbury Curling Club, Limited," that the said Company cannot by reason of its liabilities conduct its business and that it is advisable to wind up the same."

(2) "Resolved that P. R. Reed be appointed liquidator for the purpose of winding up the affairs of the "Didsbury Curling Club, Limited."

And it was resolved that a General Meeting of the shareholders be called to meet at W. G. Liesemer's office at the hour of 8 o'clock on the 3rd day of October, 1919, of which due notice be given for the purpose of confirming the foregoing resolutions and for any general business.

Dated at Didsbury, this 17th day of September, 1919.

(Signed) J. M. Reed,  
Sec.-Treas.

## Good Roads And Education

In a report made to the Minister of Education for Saskatchewan, Mr. H. S. McManis, chief attendance officer in the province, to whom is entrusted the administration of the Compulsory School Attendance Act, says, in part, as among the reasons assigned for the absence of children from rural schools: "Impassable roads, but this is a condition which will improve as the province grows older."

In previous issues, the writer of this column has dwelt upon the importance and necessity of good roads in these western provinces, and also upon the absolute necessity that farm boys and girls should be given the best possible education and kept in school as long as possible. In this article we hope to make clear the bearing which the provision of good roads has upon the successful carrying out of a better schools policy and a higher average attendance at school.

There are four main groups under which every problem treated as peculiar to rural communities are in can be properly grouped.

First: Greater production or more intensive farming, which is primarily a question of more population on the land.

Second: Proper educational facilities for the boys and girls, or provision for a high school education without forcing parents to leave the farm at the period of their greatest production in order to give their children an even start with the town boy and girl in educational equipment.

Third: Proper social and amusement facilities for the entire family as a primary means of keeping them contented with life on the farm.

Fourth: The development of a community spirit, hearty co-operation in a social and economic way, as the best means for guaranteeing the prosperity and contentment of all.

Thus, roughly, do we group the various topics which concern the relations of the people one with another as distinguished from those which deal with those things that concern the individual farmer, such as better crops and improved livestock.

Now analyze this proposition: The solution of all these problems, the

one final answer to them, the one thing that will lay the foundation that will make them possible, and leaves but details in connection with each to be arranged, but without which success cannot be achieved, is a passable system of all-the-year good roads.

In some of our more thickly populated districts in the West, a consolidated school would mean a vast improvement over several small district schools. It would be a better school in every way, and provision for high school training would be possible. But without good roads for the conveyance of pupils the consolidated school and rural high school is impracticable, and many of such schools established in the United States have been abandoned solely because of the impossibility of transporting the school children over the existing roads.

But, it is said, it will take money to build roads. Certainly it will, and lots of it. But the city dweller cannot live in an eight or ten-room house with electric lights, hot water and other modern conveniences for the same outlay that he can live in a cave. He pays for those conveniences and he finds that it pays him to pay for them. So with good roads—they will more than pay for themselves.

Here in Western Canada we are somewhat inclined to look upon the Province of Quebec as backward and slow because we are not fully informed of what is transpiring there. Within the past fifteen years Quebec has been forging ahead in general agriculture, dairying and livestock raising faster than Ontario, and in some respects more rapidly and substantially than these Western Provinces. Industrially and commercially it is going ahead by leaps and bounds, and a complete transformation is taking place educationally.

What is the basis for this development in Quebec? Everyone who has studied it has but one answer: Good roads. The Province of Quebec has now the best roads in the Dominion, as far as it has gone, and it means to continue until every farmer can get his goods to market, his children to school, and his family to church, without a breakdown or being mired.

Some years ago the Provincial Government asked for authority to spend \$20,000,000 on roads. Some people who think the French-Canadian habitant is penurious and unprogressive might give some thought to the fact that they enthusiastically gave the necessary authority. That \$20,000,000 has been spent, and Quebec now leads the Dominion in good roads. Two or three months ago the Government appealed to the people for a new mandate to keep on spending millions on good roads, the result being that a majority of Government supporters were returned by acclamation.

(Note.—Further consideration of this important subject will be reserved for next week.)

### Ticked Off

Cutlbert: Do you sell dog biscuits in this dirty little shop?

Offended Shopkeeper: Yes, sir, will you take them away or will you eat them here?

Fervish, pale, restless, and sickly children owe their condition to worms. Mother Grace's Worm Expeller will relieve them and restore health.

No woman objects to embarking in a courtship.

## ECZEMA IN RASH CUTICURA HEALS

Very Itchy and Burned. Troubled Six Weeks.

"Our daughter's face came out in a rash that we were told was eczema. Her cheeks got sore and she rubbed causing loss of sleep. The breaking out was very itchy and burned so that I had to tie gloves on her hands to keep her from scratching."

"This trouble lasted about six weeks before I used Cuticura. I used one large box of Cuticura Ointment with two cakes of Cuticura Soap when she was healed." (Signed) Mrs. H. Stares, Blenheim Rd., Galt, Ont.

Cuticura Soap, Ointment and Talcum are ideal for daily toilet uses. For free sample each of Cuticura Soap, Ointment and Talcum address post-card: "Cuticura, Dept. A, Boston, U. S. A." Sold everywhere.

### Ratify Peace September 20

Paris.—According to the Echo de Paris, the Chamber will ratify the peace treaty on September 10, and the Senate will take similar action on September 20.

## FREQUENT HEADACHES

### A Sure Sign That The Blood Is Watery And Impure

People with thin blood are much more subject to headaches than full-blooded persons, and the form of anaemia that afflicts growing girls is almost always accompanied by headaches, together with disturbance of the digestive organs.

Whenever you have constant or recurring headaches and pallor of the face, they show that the blood is thin and your efforts should be directed toward building up your blood. A fair treatment with Dr. Williams' Pink Pills will do this effectively, and the rich, red blood made by these pills will remove the headache.

More disturbances to the health are caused by the blood than most people have any idea of. When your blood is impoverished, the nerves suffer from lack of nourishment, and you may be troubled with insomnia, neuritis, neuralgia or sciatica. Muscles subject to strain are under-nourished and you may have muscular rheumatism or hindago. If your blood is thin and you begin to show symptoms of any of these disorders, try building up the blood with Dr. Williams' Pink Pills, and as the blood is restored to its normal condition every symptom of the trouble will disappear. There are more people who owe their present state of good health to Dr. Williams' Pink Pills than to any other medicine, and most of them do not hesitate to say so.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Even a hen can scratch up trouble between neighbors.

## DEATH REPORTED

An old offender that hung on for years. Nothing touched his stony heart but Putnam's Corn Extractor, and out he came, root, stem and branch. All corns cured just as quickly when Putnam's is used; try it, 25c at all dealers.

### German Gold Hoard Surrendered

After the conclusion of the armistice at Spa, it was decided that Germany, before being re-occupied, must deposit with the National Bank of Brussels as guarantee \$70,000,000 marks (nominally \$92,500,000).

Part of this gold was placed at the disposal of the Bank of England in New York. It is now being taken from Brussels to London, whence it will be conveyed to New York in consignments of \$4,000,000 and \$8,000,000, guarded by escorts of Belgian soldiers.

### Ex-Kaiser Goes Calling

The Hague. — Former Emperor William of Germany, for the first time since he took refuge in Holland, was a guest outside Bentinck Castle. Accompanied by his wife, who made a previous visit there, and by Count and Countess Bentinck, William Hohenzollern motored to Beuport Castle, 10 miles from Amersfoort, and took tea with the Countess Constant.

The once imperial couple returned late in the evening to Amersfoort in a closed automobile.

## Six Killed On Ship

Vancouver.—S. McRae, of Vancouver, second engineer, and five Chinese firemen were killed on the steamship Melville Dollar, of Vancouver. The nature of the accident which caused the deaths of the six men is not known here. The steamer was off the China coast at the time, having left this port some weeks ago for the Orient.

Pain Flees Before It. — There is more virtue in a bottle of Dr. Thomas' Electric Oil as a subduer of pain than in gallons of other medicine. The public know this and there are few households throughout the country where it cannot be found. Thirty years of use has familiarized the people with it, and made it a household medicine throughout the western world.

There is no radical cure for laziness, but starvation will come the nearest to it.

## LEMONS MAKE SKIN WHITE, SOFT, CLEAR

Make This Beauty Lotion for a Few Cents and See for Yourself

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way: Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well, and you have a whole quarter pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.

Don't be ashamed to begin life with a small show; you may eventually be the owner of a three-ring circus.

### Minard's Liniment Cures Burns, Etc.

A good wheely right seldom gets left.

Always Serviceable. — Most pills lose their properties with age. Not so with Parmelee's Vegetable Pills. The pill mass is so compounded that their strength and effectiveness is preserved and the pills can be carried anywhere without fear of losing their potency. This is a quality that few pills possess. Some pills lose their power, but not so with Parmelee's. They will maintain their freshness and potency for a long time.

Men listen when money talks. Probably that is why we sometimes hear of hush money.

### Minard's Liniment Relieves Neuralgia.

"Why all the smile, Jones?" "Forgot what the wife told me to get down town."

"Well, call her up." "I did, but she forgot what she told me not to forget."

## He's starting right

Dad is happy to find that his boy won't have to put up with what he went through — dull blades, tingling face, half-removed stubble.

Instead the lad will experience only the cleanliness and comfort, the sense of physical well being that follow a cool, clean, satiny shave such as only an AutoStrop Razor can give. This and the fact that the AutoStrop Razor sharpens its own blades, and is not taken apart for stropping or cleaning, has led thousands of dads everywhere to recommend the AutoStrop Razor to their sons.

Razor — Strop — 12 blades — \$5

### Would Aid France

Berlin. — Four hundred thousand German workers have volunteered for work of restoration in northern France, according to the Vorwarts.

Miller's Worm Powders work so effectively that no traces of worms can be found. The pests are macerated in the stomach and pass away in the stools without being perceptible. They make an entire and clean sweep of the intestines, and nothing in the shape of a worm can find lodgement there when these powders are in operation. Nothing could be more thorough or desirable than their action.

A bachelor's idea of "freedom" is to avoid getting tied up to one woman by getting tangled up with half a dozen.

WEDNESDAY, SEPT. 17, 1919.

## A Task and a Privilege

The task of war seemed stupen-  
dous, yet the task of reconstruction  
is infinitely greater and more diffi-  
cult. You cannot split the world  
asunder, drench it in blood, lay a  
portion of it in utter ruin, upset  
economic traditions, create new  
standards, and then restore it all by  
a treaty of peace. Millions of men  
must return to their normal tasks,  
labor problems must be met in fair-  
ness to all; economic problems  
affecting every business and home  
must be solved.

In this reconstruction era which  
we are now entering it is our duty  
and very great privilege of the Cha-  
taqua and Lyceum to interpret.  
Believing this, the dominion lyceum  
and chautauques are pledged to do  
their work in reconstruction with  
unstinted vigor and in a spirit of  
service to our country and our  
people.

Next in importance to the press  
stands the lyceum and Chautauqua  
platform—a tremendous force in  
shaping public opinion. Proven of  
such great value to the nation dur-  
ing the war it will now be turned  
wholeheartedly to this great task  
of reconstruction.

## Daylight Saving Ends October 26.

Daylight saving time will come to  
an end at 2 a.m. on the last Sunday  
of October, the clocks being turned  
back one hour at that time.

As summer time was adopted by  
the Canadian railways and many  
Canadian cities and towns to con-  
form with the United States time,  
it is presumed that the majority of  
the Canadian municipalities will  
also go back to sun time on the  
last Sunday of October.

## Committee Appointed on Soldiers' Bonus.

The parliamentary committee in  
Ottawa acted wisely in deciding to  
hear any information from the  
soldiers in favor of the gratuity  
plan or any other plan affecting the  
soldiers. The returned men will  
have full chances to present their  
case. They will present a good,  
strong case, too.

## Dominion Lands

### Increase in Rate of Interest

**PUBLIC NOTICE** is hereby given  
that in accordance with the provis-  
ions of an Act to amend the Domini-  
on Lands Act, passed at the last  
Session of Parliament, and com-  
mencing from the 7th July, 1919,  
where interest is chargeable, the  
rate of such interest on all new trans-  
actions in connection with Domini-  
on Lands shall be six per centum  
per annum; also that from the first  
of September, 1919, the rate on all  
overdue instalments in connection  
with both past and future transac-  
tions will be increased to seven per  
centum per annum.

By order,

L. PEREIRA,

Secretary.

Department of the Interior,  
Ottawa, August 26th, 1919.

4637

## MOUNTAIN VIEW NOTES

The Mountain View Institute met  
at the home of Mrs. Stewart Tighe,  
on Thursday last, seventeen were  
present. Next meeting in October  
will be at the home of Mrs. Ed.  
Blain.

The Institute will hold a pantry  
sale of home cooking and vegetables  
or produce of any kind in Didsbury,  
Oct. 4th. The place of sale to be  
mentioned later. Don't forget the  
date and anyone wishing to help in  
this are welcome. Proceeds to go  
towards Hospital in Didsbury.

## "A Joan of Arc Machine"

**"S**HE withstood everything in the field and  
above all was, and still is, the last and  
only car to survive until the cessation of  
hostilities."—Extract from letter received by  
Ford Motor Company from a British Soldier,  
in Africa.

Over shell-torn roads, through water soaked fields, second  
only to the tanks in its power to climb debris and crater holes,  
the Ford car made a world famous record in the fighting area  
of the great war. In press despatches, in field reports, in  
letters, in rhyme and song the praises of the Ford were sounded.

In France - 700 cars out of 1,000 were Fords  
In Italy - 850 cars out of 1,000 were Fords  
In Egypt - 996 cars out of 1,000 were Fords  
In Mesopotamia 999 cars out of 1,000 were Fords

The Ford power plant that established this world-wide record  
in every theatre of the war remains the same. It will be in  
the Ford you buy.

Ford Runabout \$600, Touring \$650. On Open models, the Electric Starting and  
Lighting Equipment is \$100 extra.  
Coupe \$675. Sedan \$1,175 (closed model prices include Electric Starting and Lighting  
Equipment). Demountable rims, tire carrier, and non-skid tires on rear as optional  
equipment on closed cars only at \$25 extra. These prices are f.o.b. Ford, Ont., and do  
not include War Tax.

Buy only Genuine Ford Parts. 700 Canadian Dealers  
and over 2,000 Service Garages supply them.

To Get Better HEALTH Have CAUSES TREATED, Not SYMPTOMS.

## A FAIR, SQUARE MOTTO TO ALWAYS REMEMBER

Patronize a home industry that is building up and develop-  
ing what is absolutely sure to increase the value of your  
farm properties.

This you can accomplish by always bringing us your milk,  
sweet or sour cream, or eggs; in fact, any produce you  
have to sell. We can get you the best market. Our  
market for good sweet cream, which will bring you the  
highest price is unlimited.

We have the facilities to freeze it after you deliver it.

When continually patronizing us you have the advantage  
of selling either the whole milk, fresh sweet cream or sour  
cream, whichever will bring you the most dollars.

We ask your support and co-operation. Dairymen, our  
business is open for your inspection, from start to finish.

Come in and have a visit and see what we are planning to  
do for you.

## Sunken Eyes Brighten Quickly, Health Returns

In a Message to Ailing Women Doctor  
Hamilton Tells How It Is Done

In speaking of the ills from which women suffer, Dr. Hamilton points out that nine out of every ten women are by nature inclined to habitual constipation. Harsh purgatives are resorted to, which only intensify the trouble. Although not generally known, it is a constipated condition of the bowels that causes half the sickness and tired weariness with which all womankind is so familiar. It was after long years of study that Dr. Hamilton perfected the pills which have been of such marvellous benefit to women the world over. In his pills of Mandrake and Butternut every sufferer will find an absolute specific for constipation, sick headache and biliousness. It is safe to say that Dr. Hamilton's Pills bring better health and keep the system in a more vigorous condition than any other medicine ever discovered. At all dealers, in 25c boxes.

## THE COW PUNCHER

— BY —  
ROBERT J. C. STEAD

Copyrighted, Canada, 1918, By  
The Musson Book Co., Ltd.,  
Toronto. Printed By Special  
Arrangement.

(Continued.)

"Fool," he said to himself. And because he could think of no more specific expression to suit his feelings, and because expression of any kind brought a sort of relief, he kept on repeating the word, "Fool, fool, fool!" And as his self-condemnation gradually won him back to a sense of perspective he became aware of the danger of his position. He went over the events of the recent months, and tried to be rational. He had left his ranch home to better himself, to learn things, to rise to be somebody. He had worked harder than ever before, at more disagreeable employment; he had lived in conditions that were almost nauseating, and what had he learned? That you can't beat a card man at his own game, price sixty dollars, and that the gallery seats are cheaper, and sometimes sater, than the orchestra.

Then all of a sudden he thought of Reenie. He had not thought of her much of late; he had been so busy in the days, and so tired at nights, that he had not thought of her much. True, she was always in the back of his mind; in his subconscious mind, perhaps, but he seemed to have put her away, like his skill with revolver and lasso. Now she burst upon him again with all that beauty and charm which had so magnetised him in those glad, golden days, and the frank cleanliness of her girlhood made him disgusted and ashamed. It was to fit himself for her that he had come to town, and what sort of mess was he making of it? He was going down instead of up. He had squandered his little money, and now he was squandering his life. He had been drunk. . . .

Dave's nature was one in which emotions were accelerated with their own intensity. When he was miserable his misery left no place in his soul for any ray of sunshine. It fed on itself, and grew to amazing proportions. It spread out from its original cause and enveloped his whole life. It fractured all his relationships, past, present and future. When a cloud of gloom settled upon him he felt that it would never lift, but became heavier and heavier until he was crushed under its weight. And the sudden manner in which Reenie had now invaded his consciousness intensified the blackness in which he was submerged, as lightning darkens the storm. He saw her

on that last night, with the moonlight wooing her white face, until his own body had eclipsed it in a warmer passion, and he heard her words, "I know you are true and clean."

True and clean. "Yes, thank God, I am still that!" he cried, springing suddenly to his feet and commencing to dress. "I've been spattered, but nothing that won't wash off. Perhaps," and he stopped as the great thought struck him, "perhaps it was the luckiest thing in the world that the booze did put me out last night. . . . It'll wash off."

There was considerable comfort in this thought. He had wasted some precious months, but he had not gone too far, and there was still time to turn back. But he must begin work at once on the serious business of life. With this resolve his spirits returned with a rush, and he found himself whistling as he completed his toilet. There was no breakfast for the late sleepers Sunday mornings, and he went at once into the warm air outside. The sunshine fondled his body, his limbs, his face; the spring ozone was in his lungs; it was good to be alive. Alive—for a purpose. Well, he would start at once; how could he begin a life of purpose today? He was quite set on the necessity of doing something, but quite at sea as to what that something should be. It occurred to him for the first time that society had been much more generous in supplying facilities for a boy to go down hill than to go up.

He became aware of a bell ringing. At first the sound had fallen only on his subconsciousness, but gradually he became aware of it, as one being slowly recalled from sleep. Then he remembered that it was Sunday, and that was a church bell. He had often heard them on Sundays. He was about to dismiss the matter when a strange impulse came into his mind. Why not go to church? He had never been in church, and he felt that the surroundings of the pool hall would be much more congenial. He had little stomach for church. What if the rest of the gang should learn he had been at church?

"I believe you're afraid to go," he said to himself. That settled it. In a few minutes he was at the church door, where an oldish man, after surveying him somewhat dubiously, gave him a formal handshake and passed him into the hands of an usher. The usher led him down an aisle and crowded him into a small pew with several others. There were many unoccupied pews, so Dave concluded it must be a church policy to fill them full as far as they went. He also observed that the building was filling up from the rear, notwithstanding the efforts of the ushers to cajole the people farther down the aisles. Dave reflected that the custom here was quite different from the theatre, especially the "rush" gallery, where everyone scrambled for the front seats.

He was very conscious of being observed, and there was an atmosphere of formality and, as it seemed to him, of strained goodness that made him uncomfortable. But presently the organ commenced and diverted his interest from himself. It was very wonderful. His position commanded a view of the organist, and Dave marvelled at the manner in which that gentleman's feet hopped about, and how his hands flourished up and down, and occasionally jumped from the keyboard altogether to jerk out a piece of the machine.

Then the choir filed in. They were all dressed alike, and the men had a kind of a gown on. Dave thought that was very silly. By some mental freak he found himself picturing a man with a gown roping a steer, and it was only by a sudden tightening of his jaws that he prevented an explosion of amusement. He was still feeling very happy over this when a tall man entered from a side door and ascended the steps to the pulpit. He moved very solemnly, and when he sat down, rested his head on his hand for a minute. Then he looked over the audience, and Dave thought that his expression was one of approval. Then he looked at the ceiling.

"He feels safe in his seat," thought Dave. "No backb in this bunch. Well—"

The organ had broken forth in a great burst of sound and everyone

## Breathe Deeply, Then Listen For That Bronchial Wheeze

Dangerous to Neglect Troubles  
in the Chest, Throat or Nose  
at This Season

Rough, wheezy breathing means danger ahead. Every day you defer treatment makes it harder to cure. Don't delay. Bronchial and lung troubles are all too frequent. Start today with "Catarrhazone," breathe in its pure balsamic vapor. Let its healing fumes do for you what stomach medicine never can. Nothing so certain as a Catarrhazone Inhaler to strengthen a weak throat, to rid you of Bronchitis, to drive out catarrh, coughs and colds. Use Catarrhazone to prevent, to cure your winter ills. Physicians endorse it, hospitals use it. Thousands swear by it. Two months' treatment, large size, \$1.00; smaller sizes 25 cents and 50 cents, all dealers or The Catarrhazone Co., Kingston, Canada.

was standing up. Dave did so, too, belatedly. Then everybody sang. They seemed to know just what to sing. It was all new to Dave, but it sounded all right. It made him feel just like the sunshine did after the stuffy room. Then they all sat down. Dave was becoming more alert, and was not caught napping in this movement.

There was a short prayer, which Dave did not understand, and more singing by everybody, and then the ushers came around for the collection. Dave did not know how much to put on the plate, but he supposed a good seat like this in the theatre would cost a dollar, so he put on that amount. He noticed that his neighbor on one side put on a nickel, and on the other side nothing at all. He began to think he must have made a mistake. All this time the organ was playing boisterously, but suddenly it dropped to a low, meditative theme, and Dave began to fear it would stop altogether. But no; a young woman was standing up in the choir; she was pretty, with quite a different air and finer comeliness than that of the theatre girls of the night before. In some vague way she seemed reminiscent of Reenie Hardy. Dave's introspection was not deep enough to know that any fine girl would remind him of Reenie Hardy.

Then she began to sing, and he felt again that the sunshine was playing about him, but this time he heard the birds, too, and the ripple of the distant water, and the stir of the spruce trees, and he could see the lattice of sunlight through their dark leaves playing on the brown grass, and there was a smell of distant wood smoke, and the glow of dying coals. . . . He was swaying gently in his seat, held in the thrall of her voice, and suddenly he was glad he had put a dollar on the plate. He could not follow all the words, but it was something about a land where the sun would never go down. Well — no doubt the preacher would tell them more about it.

Then there was a long prayer by the preacher. He began addressing the Deity as all mighty and all knowing, and then spent many minutes in drawing his attention to details which had evidently escaped His notice, and in offering suggestions for the better government of the universe. He dwelt on the humility and

penitence of the congregation, including himself, and at this point Dave's unorthodox ear began to detect a false note. He looked about from preacher to congregation, and saw no evidence of penitence or humility. "If God is all-knowin'," said Dave to himself, "that preacher is goin' to get in wrong. Why, he couldn't put over that humility bunk on me."

At length it seemed that the sermon was really going to commence, but a well dressed man came down the aisle and read a long financial statement. Dave gathered from it that the Lord was pretty hard pressed for ready cash. "No wonder," thought he, "if they all give nickels and nothin's. Pretty well dressed bunch, too."

Finally the preacher took the meeting in hand again, and announced his text, but Dave soon forgot it in trying to follow the sermon. It was an orthodox exposition of the doctrine of the atonement. Dave would not have known it by that name, and there were many expressions which he could not understand, but out of a maze of phrases he found himself being slowly shocked into an attitude of uncompromising hostility. There was no doubt about it; the preacher was declaring that an innocent One had been murdered that the guilty might go free.

(To Be Continued.)

## BABY HAD DIARRHOEA WAS GIVEN UP

DR. FOWLER'S  
EXTRACT OF WILD STRAWBERRY  
CURED HER

Mothers should look well after their children during the hot summer months, as this is the time of year when the young ones are liable to all kinds of bowel complaints.

If your children have any looseness of the bowels do not experiment with new and untried remedies. Get one having stood the test of time. Dr. Fowler's Extract of Wild Strawberry has been on the market for the past 74 years. Don't accept a substitute and perhaps endanger your child's life.

Mrs. Willis Coupland, Sundridge, Ont., writes: "About four years ago my little girl, then a baby two months old, took diarrhoea. I took her to the doctor, but to no avail. After he had given her up, I read of Dr. Fowler's Extract of Wild Strawberry and immediately got a bottle. Within two days she was improving fast. I cannot ever praise it enough. I hope some poor sufferers will see this letter and lead them to a friend indeed." Price 35 cents. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

## Order Farms Seized

Berlin.—The Prussian minister of agriculture has empowered the local communities to seize farms whose owners refuse to enter labor contracts with their employees, or who fail to live up to the wage scales and where terms ended by contracts. The lands to be seized are to be administered by the respective communities for the common good.

"A clergyman, about to enter a street car, noticed a man seated in the corner who was half-dead with pain."

"Do you allow drunkards in your bus?" he asked the conductor.

"Well, not as a rule," said the conductor. "But slip in quietly."

## EDDY'S Paper Specialties

### THE makers of

the famous Eddy Matches are also makers of a long line of Paper Specialties. It is likely that you are using some of these products every day—perhaps without knowing it. The next time you buy TOILET PAPER, PAPER TOWELING or PAPER SERVIETTES look for Eddy's name. It is your best guarantee of satisfaction and the best possible value for your money. Our experience of more than 60 years in business is your safeguard.

The E. B. EDDY CO. Limited  
HULL, Canada  
Also makers of Indurated Fibroware  
Washbasins, Pails, Etc.

## Mounted Police Strength

For First Time in History Now in  
Excess of Sixteen Hundred

Regina, Sask.—For the first time in the history of the force, the strength of the R.N.W.M.P. is in excess of 1,600 all ranks. Shortly after the outbreak of the war 500 men were taken on for a period of one year, bringing the strength to more than 1,500.

At the expiration of the year these men enlisted in various units where they learned there was no chance of the force going overseas as a unit. Continued enlistments and recruits brought the force to low ebb about a year ago.

## Sure! High Heels Cause Corns But Who Cares Now

Because style decrees that women crowd and buckle up their tender toes in high heel footwear they suffer from corns, then they cut and trim at these painful pests, which merely makes the corn grow hard. This suicidal habit may cause lockjaw, and women are warned to stop it.

A few drops of a drug called freeze-one applied directly upon a sore corn gives quick relief, and soon the entire corn, root and all, lifts out without pain. Ask the drug store man for a quarter of an ounce of freeze-one, which costs very little, but is sufficient to remove every hard or soft corn or callus from one's feet.

This drug is an ether compound and dries in a moment and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin. Clip this out and pin on your wife's dresser.

"If I'm disturbing you, father, I'll stop. I'm only practicing to kill time," said the young girl, pictured in Judge.

"Better stop, my dear, I think you've killed him."

## PILES

Do not suffer another day with itching, bleeding, or protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as certainly cure you. Use a box; all dealers, or Edmanston, Hates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 2c. stamp to pay postage.

## Use More Corn Syrup For Preserving

LILY WHITE

Real home-made preserves, and the woman who puts them up—how they're both appreciated. Preserving is not difficult to-day. The LILY WHITE way has removed the uncertainty.

Most of your preserving troubles have come from using sugar alone. Even the beginner can count on success if she will use half LILY WHITE and half sugar. LILY WHITE blends the sugar with the fruit and makes preserves that will never crystallize.

LILY WHITE and CROWN BRAND are both Dandy for Candy. Your grocer sells Crown Brand and Lily White Corn Syrup in 2, 5, 10 and 20 pound tins.

THE CANADA STARCH CO., LIMITED, MONTREAL.

Granulated Eyelids,  
Eyes inflamed by exposure to Sun, Dust and Wind quickly relieved by Murine Eye Remedy. No Smarting, just Eye Comfort. At Your Druggists or by mail 60c per Bottle. For Book of the Eye free write Murine Eye Remedy Co., Chicago.

# Peace Treaty Is Signed By Austria

St. Germain.—Austria's signature to the peace treaty and the departure of Dr. Karl Renner, the Austrian Chancellor and head of the peace delegation, for Vienna in an endeavor to brace up the unstable government have caused a feeling of relief in conference circles, where there has been great uneasiness lest the Vienna government should fall before the completion of the treaty.

The Bulgarian treaty probably will be handed to the Bulgarian delegation on Sept. 12 at the French Foreign Office, where arrangements have been made for an informal ceremony, the Bulgarians having expressed discontent in the proposed simple delivery of the treaty by the secretary of the conference.

Probably 21 days will be granted the Bulgarians to make observations on the treaty, and it is expected that the conference will take a short vacation while the Bulgarians have it under consideration.

Dr. Renner's cheerful acceptance of the treaty which he had frankly denounced as impossible of acceptance, and the dignified good nature he displayed throughout the day's ordeal, when he alone faced the peace conference and signed the document which seals the fate of the old Austro-Hungarian empire and precludes the union of the old Austro-Hungarian empire and remaining fragments of the dual empire with Germany, proved the transcending feature of the ceremony and excited the imagination of all the allied delegates and spectators.

The feeling of friendliness among Austria's former enemies inspired by Dr. Renner's sportsmanlike conduct augurs well for Austria, and is generally commented upon as assurance that Vienna, with its two millions of population, and the four millions in the remaining bit of old Austria, comprising the present republic, may reasonably expect amelioration of the treaty terms in the near future if they make an honest effort to live up to them.

## Against Leaving Russia To Fate

Col. John Ward Warns Britain of Real Meaning of Evacuation of Territory

London.—Col. John Ward, Labor member of the House of Commons, who has just returned from Russia, in an interview said that to desert the Russians who had rallied to our standard will make our name stink in the nostrils of every non-Bolshevik in Russia. "We went to Russia to prevent the Germans from transferring men to the western front," he declared. "Are we now to say to those who rallied round us, 'You have served our turn, we are going. We wish you luck?'"

That, said Col. Ward, is unthinkable. It would be black treachery to leave them to face the enemies they have made for our sakes without anything more substantial than our goodwill.

## Sir Arthur Currie on War Gratitudes

Hamilton, Ont.—General Sir Arthur Currie, the Canadian commander, who was received with open arms by this city, stated that while he sympathized with the veterans in their efforts to secure a more liberal allowance, he thought the \$2,000 gratuity asked would prove too great a burden for the country to bear. The veterans' plea to have a commission appointed to consider their claims was reasonable, he said, and should receive consideration. He was in favor of generous pensions, and said the present pension regulations would have to be readjusted.

## British Monitor Was Not Raided

London.—It is declared in official quarters that there is no truth in the report that a party of Sinn Feiners on a recent night had boarded a British monitor off Cork, overpowered the skeleton crew and raided the vessel. The report, printed in the Daily News, added that the raiders had escaped with a quantity of rifles, munitions and valuable instruments.

## Wheat Board Ruling

New Order Forbids Railway Companies to Transfer Wheat Without a Permit

Winnipeg.—The Canadian Wheat Board has issued an order (No. 42) which stipulates that no wheat shall be transferred by any railway company in the following areas of Alberta and Saskatchewan without a permit from the Canadian Wheat Board. In Alberta: The area bounded on the north by the C.P.R., Lacombie to Compeer; on the west the boundary line of the province; on the south the international boundary; and east by the Saskatchewan river. In Saskatchewan: C.P.R. subdivision, Cutknife, Wilkie, Hardisty, Macklin, Biford, Hefield, Kerrobert, Coronation, Swift Current, Empress, Maple Creek, Maynard, Shaunavon and Govenlock.

C.N.R. subdivision, Kindersley, Hanna, Elrose and Delisle. G.T.P. line, Trandorato, Artland, Biggar, Calgary branch, Cutknife branch and Alean, Battleford branch.

## Will Paralyze Steel Industry

Great Strike Is Declared Despite Appeal From President Wilson to Wait

Washington.—Regardless of the request of President Wilson that they take no action pending the coming industrial conference, representatives of the organized workers in the steel industry called a strike, effective September 22, to compel recognition of their unions, and of the principle of collective bargaining by the United States Steel Corporation.

The executive council of the 24 unions represented among the workers made known their decision in an announcement issued after they had requested the President, by telegraph, for a "more definite statement" as to the possibilities of arranging a conference with steel corporation officials, and after they had received a reply from the President asking that they withhold action until after the industrial conference.

## Aliens In Canada

W. D. Euler Will Enquire How Many Are Still Interned

Ottawa.—The question of interned aliens is to be brought to the notice of the House of Commons by W. D. Euler, North Waterloo, who has given notice that he will enquire how many alien enemies are still interned in Canada, how many were interned after the signing of the armistice, and when may their release or repatriation be expected.

Mr. Euler will also ask if a British subject being a naturalized citizen of New Zealand, of German origin, may be interned in Canada, or if he may be deported to Germany.

## Gave His Blood to Save Life

Kingston, Ont.—A case of unusual self-sacrifice is revealed in an operation performed in the Queen Military Hospital. Sergt. Thompson, a patient at the hospital, is a victim of pernicious anaemia, and the hospital doctors decided that a transfusion of blood was necessary. Volunteers were asked for, and the first to offer was Harry Parkes, an orderly at the hospital. The operation was carried out successfully. A pint of blood was drawn from Parkes and transfused into the system of Thompson. Both men are doing well, and the patient's life will be prolonged many years.

## War Indemnity for Australia

Melbourne.—Premier Hughes has informed the members of the Australian cabinet that if Germany makes the first indemnity payment by 1920 Australia's share will be ten million pounds sterling. When the indemnity was fully paid, he stated, Australia's share would be nearly sixty million pounds sterling.

## Serious Outbreak Of Rioting In Boston

Two Men and Boy Killed in Turbulent Outbreaks in Massachusetts Capital

Boston, Mass.—Two men and a boy were killed in turbulent outbreaks growing out of the police strike. There were numerous injuries of a minor nature to members of mobs, police officers and state guardsmen. The most serious disturbances were in the vicinity of Seelby Square and South Boston. Cavalry charged the crowds, and a machine gun was used, one man being killed and several wounded by its fire. Property damage was slight compared to that inflicted by the wild rampage of hoodlums.

One of the most serious elements in the complicated outlook was the possibility of sympathetic strikes by labor unions, which have declared their support of the policemen's union. Like the patrolmen's organization, most of these unions are affiliated with the American Federation of Labor. The crowd early became riotous and cavalrymen were sent to disperse it. The mob surged in and out of the square. Shots were fired and an unidentified man was killed. A woman was wounded in the arm, a middle-aged volunteer policeman was so badly beaten that he was removed to a hospital, and three cavalrymen were hit over the heads by other missiles and also were given hospital treatment. After military reinforcements arrived the square was finally cleared.

The South Boston district was so turbulent that it was considered one of the worst danger spots, and a large force of troops was thrown in there. For some time they had in check the mobs of the Peninsula section, but late at night conditions were so menacing that a machine gun crew was rushed over to aid them.

So fierce was the resistance of the angry crowd to the efforts of the guardsmen to preserve some sort of order that guns were levelled and the machine gun was put in position. All sorts of missiles were hurled at the guardsmen. A shower of stones so endangered the soldiers that machine gun crews were ordered to fire. One man was killed and several wounded.

## Hurricane Hits Florida

It Is Believed That the Damage Will Exceed \$2,000,000

Key West, Fla.—Lower Florida was paralyzed as a result of a violent hurricane that passed over that section. Three hundred and twenty frame buildings practically were razed, many church edifices wrecked and five retail stores tipped over. The damage is estimated at more than \$2,000,000.

Shipping off the coast met with disaster. Several small vessels were sunk and others were driven on to the reefs. A strong wind and rough sea prevented rescue work.

In the little town of Goulds, near Miami, eight buildings were totally destroyed and 13 partially demolished.

Although the property damage was enormous, no fatality has been reported.

The steamer *Granopus*, with a crew of 125 men, was sunk in Key West harbor, and the two-masted schooner *U. V. Drew*, bound from Tampa for Cuba, with a crew of seven men, was reported sunk off Key West harbor, where she had put in to escape the storm. Whether or not the crews escaped is not known. The navy radio station was put out of commission. Fruit and vegetable growers suffered the heaviest losses, the damage around Miami being estimated at half a million dollars.

## \$400,000 Wage Increases

Winnipeg.—Although no official statement will be made until the end of the week, it was learned from an authoritative source that wage increases to the extent of \$400,000 must be made by the Winnipeg Electric Railway, according to a decision reached by the Mathers board, which recently sat to investigate the men's grievances. The increases may be made retroactive, it is stated. This increase will affect carmen, conductors, motormen, trackmen, repairmen and inspectors.

# For State Ownership Of British Mines

## Strike Leaders Released

Were Greeted By Large Gathering of Sympathisers on Leaving Jail

Winnipeg.—After twenty-six days' incarceration, the eight strike leaders who have been held in the provincial jail pending their trial on charges of seditious conspiracy, were granted bail. Chief Justice Mathers, who, together with Mr. Justice MacDonald and Mr. Justice Metcalfe, heard the arguments of counsel, read the decision of the court.

Bail was granted in the sum of \$4,000 each and two sureties of \$2,000 each.

The court found that it had not been proven that the accused would not appear to stand their trial, and the decision went on to state: "The court would not be justified in refusing bail on the sole ground that public safety might be endangered by permitting the accused to be at large."

The decision, as read by Chief Justice Mathers, follows: "Because of the great public interest involved in this prosecution, and because bail has once been refused by a brother judge, I asked my brothers, MacDonald and Metcalfe, to sit with me while hearing this application, and had the satisfaction of knowing that both concurred with me in the views here expressed."

"I therefore order that the accused be admitted to bail in the sum of \$4,000 each and two sureties of \$2,000 each."

Immediately the court had adjourned, E. C. MacMurray, together with the bondsmen, left for the provincial jail, where the formal proceedings preceding the release of the accused were completed.

William Ivens was the first of the eight leaders to be released. His appearance in the doorway of the jail was the signal for cheers from the crowd of workers, numbering over 1,500, who had gathered to greet their leaders. Someone in the crowd started singing "For he's a jolly good fellow," and the song was immediately taken up. Ivens was "chained" and carried around the square.

"I've gained eight pounds in the time I've been here," said Ivens, "and I think I'll go out and rob a bank to get back; they've treated us so well." Ald. John Queen was the next to appear. He, too, received the same greeting from the crowd. The remainder of the men, Ald. A. A. Heaps, George Armstrong, R. E. Bray, W. F. Ritchard, R. J. Johns, and R. B. Russell came out together. They were immediately seized by their friends and "chained."

## Want Red Cross Help

Canada Can Aid Kolchak By Sending Supplies

Ottawa.—Kolchak and Denikin must be given support by means of munitions and Red Cross supplies if the menace of Bolshevism is to be swept from Russia, in the opinion of Lieut.-Col. Douglas D. Young, who went to France with the B.C.D., and who was a member of the British military mission in Siberia.

Col. Young laid the facts about Russia before the members of the House of Commons. What Canada can do to help the down-trodden Russian people is to send Red Cross supplies, said Col. Young, who stated the men were being sent down from the line with their wounds bound up with dirty rags, and there was an entire absence of medical and surgical needs in the country.

## Against Trade With Germany

Melbourne.—Premier Hughes, addressing a meeting of the Nationalists' Federation, said that Germany stood today the best organized nation in the world for a commercial war. He said some people had spoken to him of trade relations with Germany. If they wanted trade relations with Germany, they must get somebody else. (Cheers.)

Glasgow.—By an overwhelming vote the Trades Union Congress passed a resolution favoring the nationalization of the coal mines. The motion, presented by Robert Smillie, the miners' leader, was carried by a vote of 4,378,000 against 77,000.

The result of the vote was to throw virtually the entire congress solidly behind the coal miners' demands for the nationalization of their industry. The resolution pledges insistence by the body that the government adopt the majority report of the Coal Commission presented last June, known as the Sankey report.

This report provides for the state ownership of the mines and for joint control of their operation, in which the miners would have an effective voice. The resolution passed, calling for acceptance of the report by the government, adds:

"In the event of the government still refusing, a special congress shall be convened to decide what form of action shall be taken to compel the government to accept."

The resolution rejects the proposed alternative scheme of the government as contrary to the "interests of the nation," and as "creating the distinct trustification of the coal industry."

## Postal Workers Set Own Path

Will Not Affiliate With Trades and Labor Council Nor Participate In Other Strikes

Winnipeg.—At a meeting of the Winnipeg branch of the Amalgamated Postal Workers, it was unanimously resolved not to affiliate with the Trades and Labor Council, and not to participate in any local or sympathetic strikes. The general executive was informed that the Winnipeg branch desires the clause permitting participation of a branch in local strikes deleted from the constitution.

It was decided to demand from the government representation on any deputation that would meet the Cabinet to discuss the civil service reclassification bill.

The next meeting of the Winnipeg branch will discuss the reductions in salaries caused by the new cost of living bonus, which bonus reduces salaries of most employees from \$40 to \$100 a year, and the changes desired in the reclassification bill.

Frank R. Sutton was elected president, William Moore vice-president, and E. J. L. Fuller general secretary.

## To Further Irrigation Plans

Edmonton.—There are a number of things to be settled between the Dominion Government and us in connection with the matter, but I say go ahead with your schemes, and we will not hold you up."

This was the assurance given by Premier Stewart to a big deputation of landowners from Southern Alberta, who are interested in the promotion of irrigation in the south country, and came to the provincial ministry to ascertain their attitude in the matter.

## Want Larger War Gratuity

Ottawa.—Representatives of the Great War Veterans who are prosecuting actively the demand for a \$2,000 gratuity to each man who fought overseas are adopting a systematic plan of canvassing every member of the Commons. They are endeavoring to line them up for the party caucus to be held when Sir Robert Borden recovers from his indisposition. The attitude of each member is being reported to the local association, so that pressure from that end may also be exercised.

## To Control Cold Storage

Washington.—The first of the high cost of living laws proposed by President Wilson took form when the house agriculture commission ordered favorably reported a bill to control cold storage. All containers of food when placed in storage would be stamped "cold storage food" and the dates upon which they entered and left storage would be stamped.

## More and Better Stock More and Easier Profits Less Hard Work

Isn't that what you would like, Mr. Farmer?

If you farm the old way it can't be realized. The old way means old buildings, improperly ventilated, poorly lighted, in bad repair, and inconvenient in arrangement and possibly location.

With such a plant it is almost impossible to work hard enough or long enough to make money.

THE NEW WAY OF FARMING calls for the most modern barn that can be planned and built. The three big requirements are:

1. Plenty of fresh air.
2. Plenty of light.
3. Plenty of room.

And all so carefully arranged that the desired amount of stock can be housed, fed and cared for with the least labor and feed cost.

That kind of a barn helps its owner to make money without killing himself with overwork. If your barn doesn't measure up to that standard let us help you plan one that will—no charge for such plans.

## AROUND THE TOWN

Sitting in the end of a church pew, don't get up to admit others. Move along.

The Women's Institute will hold a tag day on Fair Day, Friday, in aid of the Didsbury General Hospital. Be generous and give your hearty support to this worthy cause.

Don't kick a man when he is down unless you are sure that he will never get up again.

The Soldiers' Bonus. — Returned men and dependents are requested to call at the Pioneer office and obtain forms which have been received by the Secretary of the local branch of the G.W.V.A., for giving information to the Parliamentary Committee now sitting at Ottawa.

Don't pray with the hungry man until you have given him something to eat. Prayer without pork availeth not.

What might have proven to be a fatal accident happened on Saturday last when the little son of Mr. and Mrs. J. Mjalsness got into the testing room of the Crystal Dairy and took a mouthful of prussic acid. The little fellow had presence of mind enough not to swallow it but his whole mouth is badly burned.

The thieves who have a mania for breaking into drug stores are visiting towns southward. Crossfield we hear was a victim to their depredations.

Many a brave cop is asleep on his beat. So, beware! beware!

The Chautauqua program this year offers you and your children good, clean, wholesome entertainment and instruction. The lecturers are of international reputation and the musical companies are among the very best who have appeared on the big summer Chautauquas in the Dominion in seasons past.

Alf. Hardy, son of Mr. and Mrs. Wes. Hardy, who was a corporal in the air service in England and who returned home a short time ago, brought with him some of the best air photographs that it has been our pleasure to see. Alf. Hardy, who took up air photography before being discharged took some of these pictures himself.

Mr. E. B. Langdon, inspector for the Soldier Settlement Board, was in town this week. Returned men are still seeking land in this neighbourhood.

Mrs. H. Roeth received a telegram a few days ago stating that her father who lives at Paisley, Ont., was seriously ill. She left last week to visit him.

P. H. Longstaff, of Winnipeg, was visiting with his friend, "Sunny" Jim Phillipson, for a few days last week. Mr. Longstaff was gassed twice in the great war, the last time at the battle of Paschendale, very severely, which caused his return to Canada.

The G.W.V.A. have rented rooms in the Leuzler Block. The next meeting will be on Monday, October 6th, at 7.30 p.m. All returned men are invited to attend.

At the Opera house, this week, there is a splendid bill, headed by winsome Enid Bennet, in her newest Paramount photoplay "Naughty, Naughty!" — quite as alluring as the title indicates. Written especially by C. Gardner Sullivan, the production was directed by Jerome Storm under the personal supervision of Thomas H. Ince himself. The story is full of laughs from start to finish and contains many new and unexpected twists of plot.

Prohibitionist Lecturer: "Keep the whiskey down, my friends, keep the whiskey down." Voice: "It's pretty hard to do it, mister, the rotten stuff they sell you nowadays."

The people who expected nothing more of the industrial conference than that it should be a good time between labor and capital do not look like being disappointed.

Don't be a man that would unfairly treat the business enterprises of his own province for the sake of an imaginary cent.

Save your school scribbles by buying our small scribbling pads. Just the thing to save the books, two for 5c. while they last. The Didsbury Pioneer.

The communists in session at Chicago have decreed that lawyers, doctors and editors will not be permitted to take part in "the revolution." We don't know what they have agin' us.

A writer brought back from Germany a grim example of the humor developed among a distracted people by the innumerable deprivations they suffer. It was the story of a man determined upon suicide as the only escape. "His first step" runs the story, "was to buy a rope to hang himself with, but being made of paper, it broke. Next, he tried poison, but being a weak substitute, it only made him ill. He went to the river to seek peace in the waters but the crowd there ahead of him was so dense that he never could reach its bank. Finally he determined to confine his food to the government ration—and in a few days he was dead of starvation."

## OLDS SCHOOL OF AGRICULTURE EDUCATION PAYS ON THE FARM

Statistics show that farmers who have had an education make larger incomes than those who have received but little schooling.

An education is more necessary now than it was thirty years ago. Farming has changed greatly in this period. Then, farmers cut their grain with a cradle, ground their grain between stones and lifted the water out of the well in buckets. They treated their nondescript cattle for "hallow horn" and "wolf in the tail" and planted their grain "in the moon." The horse and the ox were their only means of transportation. The farm houses had no conveniences, houses were lit with candles, the kitchen equipment consisted largely of hard work.

Now, the farmers have larger farms, they cut and bind their grain with binders and thresh with engine-driven separators. They frequently plow with tractors and many own automobiles. They select improved types of breeding animals and feed their stock in accordance with knowledge derived from the chemistry of foods. The farm houses have been greatly improved.

To keep up with the times and to make the most money from the farm one should know how to farm in accordance with the most improved methods. You can learn these methods at the Olds School of Agriculture. Education Pays: You can learn in a few months what it would take years of experience to give you. Talk with any ex-student regarding the value of the course.

Classes in Agriculture and Domestic Science commence on October 20th

For particulars write:

E. S. GRISDALE, Principal, School of Agriculture, Olds, Alberta
